## MY MYSTERIOUS AND FASCINATING STORY

Have you thought about our life in a space? Or have holidays in there? I want to tell you my mysterious and fascinating story that happened with me in my childhood.

I always was interested of living in a space. Space is something unusual and unsolved thing for me. I think not just for me but for all humanity. Just imagine how many secrets are hidden in a space. Maybe there are other people, other animals, nature and creatures...

One day there was a star fall. And I always believe that on this day our dreams come true. I, with all my hope, made a wish to spend my holidays in a space...

It was usual day for me but something strange happened with me at night. I woke up about 3 o'clock due to a strange noise at night and i saw some creature near my window. I was scared but opened the window. This creature invited me to spend holidays in a space camp. I did not understand anything. He told me that he had heard my wish and wants to help me with my dream. I was so confused. He told me his name. He was a Drake. I accepted his inviting.

We got into the rocket. Looking at the window I saw that we were surrounded by other planets and stars. I could not believe my eyes. My dream was come true! Drake told me about this adventure. It was a space camp where we can meet other creatures from different places from all over place and get some knowledge.

One day we arrived on the Jupiter. We were told about Jupiter's emergence and his rings. I felt restless around other creatures but Drake supported me all the time. He turned out to be a good friend. We listened different facts about our universe. Unfortunately, these holidays lasted only one week. And the last day I have seen the Earth from space. It was so amazing feelings! And our friendship

with Drake has grown stronger. He gave me a toy which will remind me about our adventure. I want to hug him but... The alarm clock rang and I woke up. I hold a Drake's toy in my hand...

After five years I still do not understand what happened with that night. I still miss about Drake and wait for to get some signal from him. And Drake's toy always reminds me about our unforgotten adventure. It was the best camp in my life!
